## DIGITAL ART 2020 (Team of One)

### Purpose of the Challenge:

The purpose of the challenge is to evaluate each student's ability to draw or paint with digital media, to create a piece of artwork that communicates a given theme.

### Skills & Knowledge to be Tested:

This competition is in the area of concept art where the theme will be the dominant element. Students must use their creative skills to present a finished product within the time allowed.

### Specific Requirements:

EACH PARTICIPANT ON THE DAY OF THE COMPETITION WILL:

1. Produce a work of art based on the theme given at the start of the competition.
2. Hand draw all elements of the artwork using a mouse or a drawing tablet & pen. Text may be added using your software's text tools.

### Miscellaneous Information:

- No external support programs or plug-ins (other than those found in the final shipped version of the software) may be used.
- Final work will be displayed and judged on a 1920x1080 px screen in landscape orientation.
- Participants will work independently. Instructors and/or observers will give no assistance.
- Participants will each be given the same amount of time to complete their artwork.
- Total contest duration is 4 hours.

### Judging / Distribution of Marks

Judges will individually view and assess each participant's final artwork. Tabulation sheets will be given to the members of the judging committee for verification of scores. In the event of a tie, judges will be asked to confer and come to a consensus on winners.

The following categories shall each be considered in judging:

- **Drawing:** Quality of drawing, e.g. line, proportion, perspective, scale, appeal.
- **Aesthetics:** Effective use of colour, texture, lighting (shading), composition, text.
- **Theme:** How well the artwork communicates a mood, effect or message to support the theme.
- **Digital Tools:** Skills, knowledge and ability to utilize the available technology tools.

### Challenge
