Paper Airplane Challenge Winners

Congratulations to the [winners](#) of this Online Challenge series - The Paper Airplane Challenge.

These winners were up for the challenge. With creativity, excellent plans and details, as well as design skills to fly the planes a good distance, they were able to successfully rise to the top and win in their categories!

Grade K-3 Category Winner- Zoe - Grade 3 from Halfmoon Bay Elementary School. The plane, The Stripes, flew 4.61 m.

Zoe Created a 'to do' list and followed through with a nice plane design. Well done! \$50 E-gift card winner!

Grade 4-8 Category Winner: Alison - Grade 4 from Old Yale Road Elementary School. The plane, Lulu, flew 735 cm.

Amazing amount of research, an excellent plan and a plane built to plan. Excellent submission! \$50 E-gift card winner!

Grade 9 to 12 Category Winner - Prerita - Grade 11 from Tamaninis Secondary School. The plane, The Falcon, flew 20 feet 2 in (614.68 cm).

Nice plan with dimensions, plane built to the plan. Well done! \$50 E-gift card winner!

You can view their entries [here](#).

Thanks to all the amazing submissions and to John Leech from Technology Festival -Tech-fest for judging this competition.

We have now launched the "[Design a Skills Canada BC Flag Challenge](#)." Show us your creativity and Graphic Design talent for this Challenge and Enter to Win the Chance for a \$50 E-gift card. This challenge closes **June 30**. [Click here](#) to learn how you can enter the competition.

Stay tuned for more exciting challenges to come!!

Best regards,

Michelle Skelly
