Testimonials – Regionals 2023

“This event always inspires me as I see our communities next generation of designers, fabricators, technicians and trouble-shooters,” Steve Claassen, Comox Valley Schools Careers Coordinator for Trades and ADST.

“It is a privilege to collaborate with Comox Valley Schools to host this important event, which empowers students as they showcase their outstanding skills and passion for skilled trades and technical careers,” said Cheryl O’Connell, NIC Dean of Trades and Technical programs.

“Students compete in the Peace Regional skilled events based on their chosen skill. They’re typically judged by either post-secondary instructors or industry professionals, or a combination of both. The criteria might vary slightly depending on the task but typically includes safety and knowledge of the material. It’s a great experience for our students,” said Brian Campbell, SD 60 Principal of Careers, and International Education.

“It is a privilege to collaborate with Comox Valley Schools to host this important event, which empowers students as they showcase their outstanding skills and passion for skilled trades and technical careers,” said Cheryl O’Connell, NIC dean of trades and technical programs. “Congratulations to everyone who participated.”
