

Campus: VCAD Vancouver

EVAN PARKER DENTY

VISUAL EFFECTS DIPLOMA

Program Start Date: February 18 2020

Program End Date: December 25 2021

Graduated: December 2021

If I have to do it for my whole life, I better like it!

Why did you choose this program? Out of High-School was doing Kinesiology because I wanted to go into Sports Medicine. That kind of thing, but when I pictured what I would be doing, it was something more artistic. I found VCAD and the program and moved to Vancouver.

What did you learn taking this program? It benefited me because I was able to try so many different things and once I was at the end of my program. I was able to know what I really did enjoy and what I actually did not.

Employment Details: Found employment with Atomic Cartoons as a Junior Lighting + Composition Artist and was hired on **January 18 2022**. This is considered in **field of study**, and showcases employment in his program.
