# BROW LAMINATION by **RefectoCil**

How to use—detailed step by step application

BROW LAMINATION  
by **RefectoCil**

# WOW brows in just 10 minutes

PREPARE – PERM – NEUTRALIZE – TINT – STYLE

# 1 PREPARE

Clean the brows using **RefectoCil Micellar Eye Make-Up Remover**. Use the **Saline Solution** to remove surfactants and any residual oil remaining on the skin. The skin and hairs must be dry before you begin the application process.

Use the **rubber spoolie** to brush through the eyebrows and comb them to the desired style.

Tip: Use **RefectoCil Eye Care Pads** for extra care during the treatment.

## 2 PERM

Apply **Lash & Brow Perm (1)** to the entire brow.

Start at the beginning of the brow and follow the direction that the eyebrows were brushed. Avoid the skin around the brows as much as possible and use a dry cotton bud to tidy up undesired edges. **Application time:**

**6 mins for thinner brows**  
**8 mins for medium brows**  
**10 mins for thicker/unruly brows**

Remove **Lash & Brow Perm (1)** using a dry cotton bud or cotton pad. Follow the direction that the hairs were combed. Correct individual hairs, if necessary.

## 3 NEUTRALIZE

Apply **Neutralizer (2)** to the entire brow.

Start at the beginning of the brow and follow the direction that the eyebrows were brushed. Avoid the skin around the brows as much as possible and use a dry cotton bud to tidy up undesired edges. **Application time:**

**4 mins for thinner brows**  
**5 mins for medium brows**  
**7 mins for thicker/unruly brows**

Remove **Neutralizer (2)** using a damp cotton pad. Then use **RefectoCil Saline Solution** to thoroughly clean the eyebrow area and completely remove any residue.

## 4 TINT

BROW LAMINATION  
by **RefectoCil**

Dye the eyebrows using your selected **RefectoCil Eyebrow and Lash Dye**.

Apply the tint as usual.

1-3  
mins

Application time of just **1-3 minutes**  
after **Brow Lamination!**

## 5 CLEAN & STYLE

After removing the dye, use the rubber spoolie to return the eyebrows to the desired style. If necessary, use eyebrow scissors to trim any hairs that are too long.

Use **RefectoCil Styling gel** to add extra care and protect the colour.

The result: **semi-permanent fuller looking brows.**
