Decorated Cake: The 1 x 4inch diameter cake height must be in between 3-4 inches high. This cake is a tasting cake. There is no maximum weight for this cake. However, it must be the same type of cake as the 8 inch layer cakes used in the decorated cake. It is acceptable to use a sheet cake as it is hard to get a 4 inch round cake pan. There must be at least 3 layers for this cake.
