Industry Immersion Series

by myBlueprint

November 1-30, 2025

Grade 7-12 students

20 winners x \$500 each

Skilled Career Exploration Challenge

This challenge invites students to explore and demonstrate how the Skills for Success apply to career paths within the world of skilled trades and technologies.

In this activity, students complete one of [Skills/Compétences Canada's individual hands-on skilled career exploration activities](#).

Then they dive deep into career research to:

- Learn what professionals actually do in related roles and identify three Skills for Success with specific workplace examples
- Discover education and training pathways (apprenticeships, college programs, certifications) connected to that role
- Research job opportunities and demand in their city and across Canada
