

From BC to the World: Meet Team BC's WorldSkills Competitors

From British Columbia, Canada to Shanghai, China!

Their journeys started right here in British Columbia.

Now, three of BC's talented competitors are taking their skills to the world stage.

As WorldSkills 2026 gets underway from September 22 - 27, we're proud to celebrate Eric, Veljko and Dhefen — three competitors whose journeys through Skills BC have led them all the way to the international stage.

From their first competitions here in BC, to provincial and national success, each of them has put in countless hours of training, dedication and determination to reach this moment.

Meet our BC competitors:

⚙️ Eric Wu — Industrial Control

Bringing precision, technical skill and countless hours of training to the competition floor.

💻 Veljko Stevanovic — IT Network Systems Administration

Putting his technical expertise and problem-solving skills to the test on the world stage.

👗 Dhefen Goh — Fashion Technology

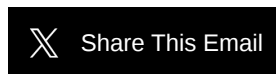

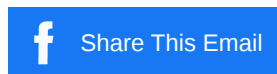

Combining creativity, craftsmanship and technical skill to compete among the world's best.

And now, they're ready to represent British Columbia and Canada at WorldSkills 2026. Their journeys are a reminder of what can happen when talent meets opportunity, hard work and a passion for your craft.

We couldn't be prouder to see them take what they've learned and accomplished here in BC to the world stage. A huge thank you to BCIT, Eric Hamber Secondary, Vancouver School Board and LaSalle college for their support towards these hard working students!

Join us in cheering them on and stay tuned to our social media channels as they compete at WorldSkills2026!
